

## **PL Line Waterless Cookware**

**ENERGY EFFICIENT • T304 STAINLESS STEEL • LIFETIME GUARANTEED**

### **NUTRITIONAL FOOD PREPARATION**

Multi-layers of heat conducting metals spread heat quickly and evenly eliminating the need for oil. A vapor seal creates a vacuum in each pan and eliminates the need for excess water as well. Foods prepared the waterless, low-temperature way retain more vitamins and minerals.

There is only a 2% average mineral loss with the waterless cooking method – up to 20 times the retention of vitamins, nutrients and minerals versus traditional cooking methods.

## CONDENSING GROOVE AND SEMI-VACUUM LID

## TRI-TONE WHISTLE VENT

## STAY COOL ERGONOMIC HANDLES

## PENTACORE

The semi-vacuum lid is constructed to insure a perfect fit.

The condensation groove collects air and water to create an almost air tight seal.

This eliminates evaporation and unpleasant cooking odors all while retaining precious nutrients.

In music, tri-tone refers to a chord comprised of three whole tones.

With PL cookware the Tri-Tone Whistle® creates a different kind of harmony: time, money, health.

When the desired temperature is reached, the Tri-Tone Whistle® alerts you to turn off the heat. There is no need to lift the lid or stir the food to prevent scorching or burning.

These durable welded handles with flame guards, makes for a more solid hold.

The units are comfortable to carry, since the handles do not heat up

The special PentaCore Compact Base, with the force of 1600 tons, becomes inseparably adhered to the 1.2mm thick body made out of several light-metal layers.

This allows for high energy efficiency, while quickly and evenly spreading heat over the entire surface.

## THE STOCK POT COLLECTION

Made of heavy gauge T-304 Surgical Stainless Steel, these large stock pots dare you to try and fill them up.

Mirror finish exterior and satin finish interior for beauty and easy cleanup. The phenolic handles are resistant to heat, cold and detergents.
